

Import Your Service Entries

Starting with eVoucher release version 6.6, attorneys can import service entries to a CJA-20/30 voucher from a file saved in comma-separated value (.csv) format. This allows attorneys using commercially available timekeeping and billing systems to create an output file from that system that can then be imported into the **Services** tab of a CJA-20/30 voucher—so attorneys don't have to manually enter each service line.

Exporting a .csv file from a timekeeping or billing system may not export to a correct format and may need to be customized to match the required format as illustrated in the sample spreadsheets provided. You can enter data directly into the sample templates manually or using copy/paste.

IMPORTANT NOTES:

- Court staff are not responsible for helping attorneys create or download .csv files.
- As a best practice, the Import Service Entries feature should be started on a new or empty CJA-20 voucher. If you have service lines already entered on a voucher, they will be overwritten with the data imported from the .csv file.

Step 1

On the Home page, expand the **Appointments' List** section and locate the appropriate appointment. Click the case link.

Step 2

The Appointment Info page displays any vouchers that were created for this appointment. In the Create New Voucher section on the left side of the page, click the **Create** link for CJA-20.

Note: If you have a previously created CJA-20, review the Import Service Entries on Previously Created CJA-20s section below.

Step 3

When the document opens, in the **Actions** menu on the left side of the page, click the **Import Service Entries (.csv)** link.

Step 4

The Services page appears. To view or download a sample .csv file, click the **sample spreadsheet** link. Click **Additional Information** to view instructions for importing time from a .csv file.

Services

eVoucher now provides the ability to import service time entries exported from a law firm billing system and saved in Comma Separated Values (CSV) format. The CSV file must contain all required column headings and data types. Please download our [sample spreadsheet](#) for the correct column headings and service type values.

IMPORTANT: It is recommended to start with a blank voucher. Otherwise, all existing service entries on the voucher will be overwritten with the contents of the imported CSV file.

- Additional Information

Each service line entry must have data in the following columns:

- Date
- Hours
- Description
- Service Type (EXAMPLES: "16b" or "16b. Obtaining and Reviewing Records")

The following columns do not require data, but should be included in the header row:

- Doc#
- Pages

For additional information refer to the [eVoucher Online Help](#).

CSV file when opened in a text editor might look like this:

```

Attorneys should still review the voucher to ensure that entries are correct prior to submission to the court. For the remaining tabs of the CJA-20 or CJA-30, please see instructions for those documents.

Appendix Excel File

For the .csv file to be successfully uploaded to and accepted by eVoucher, it must contain a header row. If the first row contains data rather than headings, the data in row 1 is ignored. Sample spreadsheets containing the correct column headings and service type values for each voucher type are available in the online help.

Your Excel file should look similar to the image below, containing all four mandatory column headings: Date, Hours, Description, and Service Type. The **Doc. #** and **Pages** fields can be included as header rows; however, they are not required unless data is provided.

Note: Time entries containing values greater than a single decimal place are automatically rounded up or down to the nearest tenth. For example, 0.125 is rounded down to 0.1 and 0.75 is rounded up to 0.8.
